

2022-2024 Board of Governors Report

GEORGETOWN UNIVERSITY
Alumni Association

Letter from the Executive Director

Dear Members of the Georgetown Alumni Community,

I am pleased to share this report detailing the impact of the Georgetown University Alumni Association from July 2022 to June 2024. At the Alumni Association, we endeavor to bring together our alumni where they live, through their professions, through their shared identity and shared interests - all bonded by their love for Georgetown. Now in its 144 year, we have created more opportunities than ever before to continually adapt to the interests and needs of the over 230,000 members of our alumni community.

My friend and long-time member of the Board of Governors, Kelly Mulvoy Mangan (F'91,P'25, P'28), began her presidential term in July 2022 reaffirming our association's strategic priorities of Engagement, Communication, and Diversity, Equity, and Inclusion. Within these priorities, Kelly focused on two major objectives during her presidency. First, Kelly offered a critical eye to the GUAA's foundational corporate governance and compliance documents, bringing them up to date and having them reflect the current organization. Her second objective focused on the future of our association by expanding our programming and offerings. Kelly wanted every Hoya to feel at home with the GUAA. She dedicated herself to supporting programs that ensured that every Hoya is recognized and celebrated by the GUAA for years to come. We are forever grateful for Kelly's leadership, we will treasure the time she led the association, and will continue to live her dream to make our alumni association at Home for Every Hoya.

Since beginning in this role in 2018, I have been inspired by the programming and events the Alumni Association has produced and sponsored during the past two years. The report details how our Alumni Clubs, Alumni Career Services and Lifelong Learning, Law Center Alumni Relations, Alliances & Affinity Groups, and Board Operations teams, in partnership with our Board Committees and volunteers, have continued to bring the alumni community together.

At its heart, our Alumni Association is about people. I am grateful to be surrounded by people who graciously share their creativity, enthusiasm, and energy as our Association continually strives to create a connected, inclusive, and welcoming home for all Hoyas.

We at the GUAA look forward to continuing to connect with you in the years to come.

Hoya Saxa,
Julia Farr (C'88, Parent'19, '21, '24)
Executive Director, GUAA

Letter from the President

Dear Hoya Alumni:

The mission of the Georgetown University Alumni Association is to generate goodwill and support for the University and to foster a lifelong connection among alumni, our alma mater and the global Georgetown community. Together with Julia Farr, our dedicated Executive Director, the professional team at the Wagner Alumni House, the Board of Governors of the Alumni Association and hundreds of Hoya alumni around the world, I have spent the past two years working to make the Alumni Association a home for every Hoya. Serving as President of the Alumni Association has been a great honor, and it is with immense pride that I share with you this report of the work done by the Association under my leadership.

My time leading the GUAA began with the Board of Governors retreat in Baltimore, Maryland in June of 2022. Having the opportunity to gather together after more than two years of virtual meetings was a blessing. We spent time reconnecting and focused on how to live out the Board's strategic plan priorities of Engagement, Communications and Diversity, Equity and Inclusion. We want every Hoya to know there is a place for them in the Alumni Association.

For Hoyas around the world, that place is in our network of 70 regional clubs. Led by dedicated volunteers, these clubs serve their local communities by providing social, community service, spiritual, cultural and just plain fun activities. The Alumni Clubs committee also celebrates and recognizes our regional clubs and their leaders at the annual Golden Jacks awards ceremony.

Many Hoyas find their home in the Alumni Association through our Affinity groups. Since being has established just three years ago, the Black Alumni Council has more than 12,000 members. I hope many of you will join us at the 2024 Black Alumni Summit in November. We also have two more Affinity groups moving through the process of becoming officially chartered by the Alumni Association. I am confident that Hoyas with Pride and the Asian Pacific Islander Alumni Council will bring even more Hoyas back home to the Alumni Association and the University.

Other Hoyas connect with the GUAA through our incredible portfolio of Alumni Career Services. Our career networking platform, Hoya Gateway, has more than 18,000 alumni, students, faculty and staff who connect in career conversations and networking. The 2024 Georgetown Women's Forum brought together hundreds of Hoyas to connect, learn and celebrate alumnae accomplishments. Our Alliance programs connect alumni in their professional fields of business & finance, entrepreneurship, entertainment & media, venture capital and technology. I am pleased to share that we have two more Alliances currently in formation, Hoyas in Health and Hoyas for Others.

And of course so many Hoyas are connected to the Georgetown community through their graduating class. The Alumni Association continues to support the work being done to make Reunions the best place for Hoyas to reconnect with each other and the University.

For more than 50 years, Georgetown alumni and friends have been coming together around the world to recognize and celebrate Hoyas who have made Georgetown, and the world, a better place. In 2023 we celebrated our John Carroll and Patrick Healy awardees in San Francisco, and this year we were together in Dublin, Ireland. Every John Carroll Weekend is magical, but being in Ireland with my husband and sons, each of whom is named for an Irish immigrant, a little more than a century after my grandfather left Ireland in steerage, is an experience I will cherish for the rest of my life.

Over the past two years we have also done important work strengthening the corporate governance of the Alumni Association and increasing its fiscal health. Led by our incredibly hard working Parliamentarian, Mark Polemeni, we updated our bylaws and various other legal documents. Our Treasurer, Mike Yaeger, together with the Philanthropy and Audit & Finance Committees, continued working to make sure that the Alumni Association is on a sound financial footing which will allow us to continue our work for many years to come.

None of these accomplishments would be possible without our Executive Director, Julia Farr, and the fantastic Board Operations team at the Alumni House. Nick Smith, Meegan Hall and Jack Doherty work every day to make sure that the Alumni Association lives out its commitment to our alumni.

I look forward to supporting Fitz Lufkin, our new Alumni Association President, as he works together with the Board of Governors, our volunteer leaders and the professional team to make sure the Alumni Association remains a Home for every Hoya.

Hoya Saxa!

2022 - 2024 GUAA Document Updates

GUAA Bylaws

We revised our Bylaws to better reflect and emphasize the impact of our work...

Modernization (Global Update)

- Remove references to U.S. mail or fax.
- Use gender-neutral pronouns throughout.

Compliance with Delaware Law (Global Update)

- Ensure consistency with Delaware General Corporation Law as it applies to nonprofit corporations.

Defined Terms (Global Update)

- Clearly define key terms such as “Elected Governors,” “Appointed Governors,” and “Governors” to maintain consistency.

Governor Vacancy (Article IV, Section 6)

- Clarify that a vacancy may be filled before the next election of Governors in June but is not required to be filled.

Board of Governors Meetings (Article IV, Section 7)

- Reduce the minimum notice required for calling Board of Governors meetings to allow for expedited scheduling when necessary.

Executive Committee Meetings (Article IV, Section 8)

- Require meeting minutes to be made accessible to Governors (e.g., via BoardEffect or a similar platform) rather than simply distributed.

Statements of Responsibility and Code of Ethics (Various Sections)

- Shift approval and amendment of these documents from the full Board of Governors to the appropriate committee.

Standing Committees of the GUAA (Article VII)

- Ensure the committee list is up to date.
- Assign oversight of Affinity Groups to the DEI Committee (currently overseen by the Career Services Committee) to ensure each chartered entity aligns with a single corresponding committee (e.g., Alliances under Career Services).
- Determine whether to list all Alumni Awards explicitly or include language allowing the Board of Governors to establish new awards as needed.

Standing Committee Guidelines (Article VII, Section 7)

- Extend the Executive Committee’s review cycle for guidelines from every two (2) years to every five (5) years.

Alumni Senate (Article X)

- Simplify the requirements for Senators to be considered “Active Senators.”
- Require Senators to sign the Senator Statement of Responsibility, which will outline various ways they can engage with the Board of Governors (e.g., as an Officer, Committee Chair, or Committee Member).

Alumni Clubs and Professional Alliances (Article XI)

- Incorporate Affinity Groups, which will be organized and chartered by the DEI Committee.
- Broaden the scope of the article to cover all "GUAA-chartered affiliated organizations."

Indemnification (Article XIV)

- Consider adding language to provide for the advancement of expenses to indemnified individuals.

Alumni House Lease

Under the leadership and guidance of our Parliamentarian, Mark Polemeni (C'88, L'91, Parent'22, '28), our lease was signed in June 2024 with the University.

- Successfully secured a long term lease on five year auto renewal terms.
- Maintain the space with an annual payment of \$100.
- Engaged GUAA Officers in the process.

Reed Residence

- Renovations of Reed Residence's main floor and entertaining space were finalized
- From 2022-2024, over 30 revenue generating events took place at the Residence
- The revenue stream for Reed Residence will grow each year, establishing a source of consistent income to support GUAA engagement programs
